I have added it as an alternative and it will be available with our next snapshot release in early 2019. PEPA will therefore return two hits. Best wishes.

Tony,

I met with Chemours yesterday in a meeting. On the spot they could not suggest an alternative. I don't want to suggest a new name that no one would be familiar with.

Lam can you suggest an alternative for the PEPA compound on our chemistry dashboard?

It's pretty hard to override a Wikipedia entry... [https://en.wikipedia.org/wiki/PEPA\\_\(drug\)](https://en.wikipedia.org/wiki/PEPA_(drug))

We don't allow for clashes so can you suggest another name? PEPA-F maybe??
